Git, Jenkins, Docker

EDUCATION

BACHELOR COMPUTER SCIENCE

UNIVERSITY OF ARKANSAS AT LITTLE ROCK

Sep 1997 - May 2002

SUMMARY

Innovative Software Developer with experience across multiple stacks including ASP.NET WebForms/MVC, PHP/Laravel, NodeJS, MySQL, MSSQL and MongoDB. Forward-thinker, adept at designing systems that meet the needs of today, while being ready for the demands of tomorrow. Technology is my second language and code is my playground.

EXPERIENCE

LEAD SOFTWARE ARCHITECT

May 2013 - May 2018

(5 years)

ARKANSAS INFORMATION CONSORTIUM  ina.arkansas.gov

Architect and develop new applications to support the growing portfolio of agencies connecting to citizens. Peer review and mentorship of other developers. Maintain and improve performance of existing applications.

- Development of an API to generate REST APIs from data sources such as CSV files, Web APIs and SQL servers
- Backend development of V1 and V2 of Gov2Go Mobile Application using PHP and REST hosted in AWS
- Architect and development of a system extension for processing Trademark filings for Arkansas Secretary of State's Business and Commercial Services using ASP.NET WebForms
